

Use the safest, use...

MAGNA-LATCH®

MAGNETIC SAFETY GATE LATCH

- Magnetically triggered latching
- Key lockable safety (Top Pull & Vertical Pull)
- Adjusts horizontally *and* vertically
- Patented 'Lost Motion' Technology
- Quick and easy to install

WORLD'S
#1
CHILD SAFETY
GATE LATCH

Magna-Latch®
Top Pull & Vertical Pull
models are all keyed alike.

Independently
tested to meet
Pool Barrier &
Safety Codes

Endorsed by Laurie Lawrence,
former Australian Olympic
Swimming Coach and
internationally recognized child
water safety advocate.

**Magnetic
triggering
means no
resistance
to closure!**

Features

- Patented magnetic self-latching
- Meets international barrier/safety codes
- Quality molded polymers & stainless steel
- Key lockable (Top Pull & Vertical Pull)
- Screws hidden while locked
- Engineered for ease of installation
- Latches even in the "locked" position
- Won't disengage from shaking & pulling
- Magnet is sealed from air
- Tested to 400,000 cycles

Benefits

- No mechanical jamming during closure
- Unprecedented reliability & safety
- No rusting, binding or staining
- Added safety and peace-of-mind
- Resists tampering
- Reduced installation time (costs)
- Exceptional safety & reliability
- Can't be forced open
- Protected from the elements
- Proven to last the test of time

Child Safety Gate Latches

MAGNA•LATCH® MAGNETIC SAFETY GATE LATCH

MAGNA•LATCH® Safety Gate Latches are a revolutionary breakthrough in latching security for gates around swimming pools, homes and child safety areas.

Powered by super-strong "Permanent Magnets," which never lose power, these quality latches incur no mechanical interference to closure and so offer unprecedented reliability, safety and child resistance.

The popular "Top Pull" model is designed especially for swimming pool gates but can be installed to any gate where child safety is important. The shorter "Vertical Pull" model is recommended for gates at least 5' (1.5m) tall. This model is also known as the 'Pet Latch', as it can provide security for pet safety gates.

All latches adapt readily to most new or existing gates and any gate material. Two models are key-lockable to provide an added degree of safety.

The "Series 2" latches can be adjusted vertically and horizontally to ensure safe, reliable latching at any time during or after installation.

Vertical adjustment is quick and easy because the latch body slides up and down dovetail-style tracks for easier, sturdier installation.

Horizontal adjustment is achieved by adjusting a screw within the "Striker Body" so that the striker can be adjusted across gaps ranging from 1/2"–17/16" (13–37mm).

The "Series 2" models provide extra impact resistance and durability on larger gates and also against heavy pedestrian traffic.

Pet Security Gate Latch

MAGNA•LATCH is also suitable for house and garden gates where pet security and pet access control are important. It prevents pets from escaping and keeps them safe from unwanted intruders.

SIDE PULL model

MAGNA•LATCH® has been tested to more than 400,000 cycles. Most swimming pool barrier codes require gates to be self-closing and self-latching. The MAGNA•LATCH® range has been designed and independently tested to meet strict international safety codes.

VERTICAL PULL model (and PET LATCH model)

ROUND POST ADAPTOR KIT

The 'Round Post Adaptor Kit' is an optional kit for mounting Magna•Latch 'Top Pull' or 'Vertical Pull' latches to gates and fences with round posts.

The kit includes adaptor brackets and shims to fit most common chain link and railing post diameters.

Code: MLS2RPAKA (Black only)

For gaps up to 2" (50mm)!

Post diameters: 17/8"–2" (48–50mm), 23/8" (60mm), 27/8" (73mm)
Gate diameters: 13/8" (35mm), 15/8" (41mm)
