If it doesn't say **Patrician** you haven't got The Best !

Choose your fence inserts from our professional line of Privacy Slats:

PVT® slats are flat tubular plastic extrusions which are inserted vertically into any type of chain link fence to add beauty and privacy to both sides of the fence.

The most economical chain-link fence filler on the market today, **FenceWeave®** converts any chain link fence into a privacy fence and allows custom fence designs.

MAX SLAT® is used when maximum privacy is needed. Guaranteed to last for 15 years, vandal-proof MAX SLAT® produces a neatly finished straight edge along the top of the fence.

The color and texture of **American Permahedge™** has been carefully chosen to ensure a natural appearance even close up. The resulting look is that of a finely trimmed evergreen hedge that blends into the natural foliage.

PVT® SLATS

PVT[®] PLASTIC VERTICAL TUBING

PVT[®] slats are flat tubular plastic extrusions which are inserted into any type of chain link fence to add beauty and privacy to both sides of the fence. Once installed, PVT[®] slats are virtually maintenance free. Salt, sand and road dirt will not harm the slats in any way. Due to the UV inhibited thermo plastic design, PVT[®] slats will not fade, chip or discolor for 15 years.

By means of a unique manufacturing process, the locking notch and top end of slat are a fixed distance assuring a straight edge along the top of the slats.

Vandal Proof PVT[®] slats have a unique locking feature. Once the horizontal locking strip is in place, the slats cannot be removed from the fence. All PVT[®] colors are specifically formulated to match vinyl coated chain link systems.

U.S. Patent No. 4512556
Canadian Patent Reissue No. 1313598

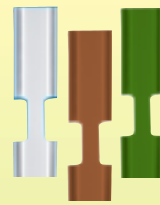

PVT[®] is available in these colors:

black/redwood/beige/white/royal blue
light blue/green/brown/grey/silver

MAX SLAT[®]

U.S. Patent No. 4512556, 5584468 Canadian Patent Reissue No. 1313598

MAX SLAT[®] is available in these colors:

black/redwood/beige/white/royal blue
light blue/green/brown/grey/silver

AMERICAN PERMAHEDGE[™]

The Clear Choice for Quality Homes

The Maintenance-Free Privacy Hedge Lattice

The color and texture of **American Permahedge[™]** has been carefully chosen to ensure a natural appearance even close up. It's density obscures the chain link mesh from view. The resulting look is that of a finely trimmed evergreen hedge that blends into the natural foliage.

Provides a Natural Shrubbery Backdrop

- ◆ Offers the most privacy of all lattice products on the market.
- ◆ Easily installs on most mesh sizes without tools or locking pieces.
- ◆ Each box covers 5 feet of fence that is vertically installed.

American Permahedge[™] is guaranteed for 10 years
