SWING GATES

SLIDE GATES

Maverick Aluminum by Iron World provides a cost effective alternative to iron, without sacrificing privacy or aesthetic appeal. Iron World offers three different styles of aluminum for commercial, industrial and residential applications: Aberdeen, Barcelona, and Camden. All aluminum panels come pre-assembled with all hardware included and ready to install.

The fence panels are made from high-grade aluminum alloys. They are strong and durable with virtually no maintenance involved. Standard colors are black, white and bronze. However, aluminum fencing can be powder coated in any color for a lasting finish that won't fade, chip, peel, rust or need any additional painting. The powder coating comes with a 20 year warranty.

Aluminum swing and slide gates are also available. They are welded and made to match all 3 fencing styles.

Which Style is Right for You?

The **Aberdeen** is our most popular style of aluminum fencing. With its flat top design and flush bottom panel, it adds an attractive element.

The **Barcelona** style creates a powerful statement. It has a classic design with three horizontal rails and pickets extending above the top rail, offering an element of protection.

Camden combines the best features of the Aberdeen and Barcelona styles into one unique design. Not only is it beautiful, but it offers the security and protection you are looking for in an aluminum fence.

Maverick Aluminum is proudly made in the USA at Iron World's Maryland manufacturing facility.
