Bay Shore, NY: Wayside Fence Company, a national fence manufacturer and wholesaler, announced today that it launched a new website; a cornerstone to their overall rebranding.

“Not only is the site beautiful, more importantly, it was built as ‘responsive web design’”, said Sal Militello, General Manager of Wayside Fence. “What this means for our web visitors is that regardless of their device, our site will auto-adjust to their screen size. No more pinching fingers and spreading the content so that it’s legible. The site is also filled with hundreds of photos of our work, both standard and custom. We’re all very proud of this website – and we look forward to offering this new experience to our customers and prospects. We know they will find, with ease and pleasure, what they’re looking for – and hopefully even get inspired with new ideas!”

Wayside Fence Company sells retail and wholesale fencing, and offers installation services in Nassau and Suffolk counties on Long Island. The company delivers product to New York, New Jersey, and New England, and ships products nationwide. Wayside also manufactures a wide variety of custom fences, gates, arbors and pergolas.

With headquarters in Bay Shore, NY and an additional distribution center in Newington, CT, Wayside Fence Company has been in business for over 65 years.
